

Groomer Report

2025-2026 Groomer Report

As we conclude another snowmobiling season, I would like to thank all our volunteers, landowners, sponsors, and club members who helped make it possible. Maintaining and grooming our trail system is a team effort, and we appreciate everyone who contributed their time, equipment, resources, and support throughout the winter.

Season Overview

The 2025-2026 season presented a variety of weather conditions, from early-season snowfall and trail preparation to mid-season grooming operations and late-season maintenance. Our grooming team worked diligently to provide the safest and best riding conditions possible whenever weather and trail conditions allowed.

Volunteer Recognition

Our trail system would not exist without dedicated volunteers. We would like to recognize and thank all groomer operators, trail maintenance volunteers, board members, and supporters who contributed countless hours to trail preparation, brushing, signing, bridge work, equipment maintenance, and grooming operations.

Landowner and Sponsor Appreciation

We extend our sincere gratitude to the private landowners who allow our trails to cross their property. Their cooperation is essential to maintaining our trail network. We also thank our business sponsors and community partners whose financial support helps fund trail maintenance, equipment expenses, and grooming operations.

Looking Ahead

As we begin preparations for next season, we will continue evaluating trail improvements, equipment needs, and volunteer opportunities. We encourage anyone interested in helping with trail work, grooming, fundraising, or club activities to get involved.

Thank you for supporting the Chippewa Sno-Kats. We hope everyone enjoyed a safe and enjoyable riding season, and we look forward to seeing you on the trails next winter.
